

NAHIDUL ARAFAT

Junior Software Engineer | AI/ML Enthusiast

Mirpur-12, Dhaka, Bangladesh | nahidularaf@gmail.com | +880 1974-337424

[Portfolio](#) | [GitHub](#) | [LinkedIn](#)

SUMMARY

Computer Science graduate experience building scalable full-stack applications using Python, Django, FastAPI, and React.js. Experienced in backend APIs, database optimization, and responsive frontends. Passionate about clean, maintainable code, continuous learning

TECHNICAL SKILLS

Languages	Python, C, C++, Java, C#, Dart
Backend	Django, Django REST Framework, FastAPI, JWT, OAuth
Frontend	HTML, CSS3, Tailwind CSS, Bootstrap, JavaScript, React.js, Flutter, TypeScript
AI / ML	Scikit-learn, Pandas, NumPy, Matplotlib, YOLOv8, LangChain, LangGraph
Databases	MySQL, SQLite, Firebase
DevOps & Tools	Git, GitHub, Postman, cPanel/Linux Deployment, Vercel, Render
CS Concepts	OOP, Data Structures & Algorithms, LLM Integration
Embedded & IoT	Arduino, Raspberry Pi, IoT Fundamentals

WORK EXPERIENCE

Jr. Software Engineer — Ondrobit | Present | Mirpur-12, Dhaka

- Developing and maintaining RESTful backend APIs using Django and Python for an e-commerce platform.
- Building responsive frontends using React.js, HTML5, CSS3, and Tailwind CSS.
- Optimizing database queries and improving system performance.
- Managing server deployments, SSL certificates, DNS configurations, and cPanel administration.
- Collaborating with a remote team to ship scalable features on regular release cycles.

PROJECTS

Ondrobit Shop — E-commerce Platform | Django, Python, Bootstrap, SQLite/MySQL | [GitHub](#) | [Live Site](#)

- Built a full-featured, mobile-first e-commerce platform with product galleries, smart cart, and COD/online checkout.
- Developed real-time inventory management and a customized Django Admin dashboard for products and orders.
- Built an automated fraud-detection engine flagging duplicate checkouts and order-velocity spam via a dynamic blacklist and the Steadfast Fraud Check API.

BrainSpace AI — Mental Health Conversational Agent | Django, PyTorch, LangChain, LangGraph, Gemini API, Ollama, Twilio | [GitHub](#)

- Engineered a ReAct-based conversational agent using LangGraph and Google Gemini API for context-aware, multi-turn conversations.
- Built a PyTorch inference layer to analyze clinical pattern data and predict user stress levels with explainable AI insights.
- Integrated Twilio API for automated emergency alerts upon detection of high-risk user sentiment.

BARAQA_BIN — Smart Waste Management Platform | React, FastAPI, ESP32 (Camera), ESP8266 | Repository private (team policy)

- Built IoT-enabled smart bins with computer-vision waste detection, a React leaderboard dashboard, and gamified rewards via FastAPI.
- Top 10** of 300+ Teams — Eco Leaders Training; **Champion** — Climate Smart Business Transformation; **Qualified** — Innovation World Cup 2026; Hult Prize 2026 Round 3 Qualifier.**2nd Runners-Up**, Impact Launch Night 2026 — SustainLaunch Labs.**Champion**, Engineering Olympiad 2025 — BUBT

BUBT Bus Tracker | Flutter, Dart, Firebase, Google Maps API | [GitHub](#)

- Developed a cross-platform bus tracking app with live Google Maps locations, Firebase auth, and real-time Firestore sync.

Ondrobit — Company Website | Django, Python, Bootstrap | [Live Site](#)

- Designed and developed the responsive, brand-forward corporate website for Ondrobit.

ACHIEVEMENTS & COMPETITIONS

- Top 10** of 300+ Teams, Eco Leaders Training — The Earth Society (British High Commission funded).
- Champion**, Climate Smart Business Transformation — Youth-Led Sustainability Action Research 2026.
- 2nd Runners-Up**, Impact Launch Night 2026 — SustainLaunch Labs.
- Champion**, Engineering Olympiad 2025 — BUBT.
- Top 20 Finalist**, Green Innovation 2025;
- Finalist**, InnovateX Hackathon 2025 — Programming Hero.
- Qualified, **Innovation World Cup 2026** (Indonesia);
- Round 3 Qualifier, Hult Prize 2026.
- 3× ICPC Contest Participant; 3× Qualifier, BIUPC.
- Solved 500+ problems on [Codeforces](#), [CodeChef](#), and [VJudge](#).

EDUCATION

B.Sc. in Computer Science & Engineering

Bangladesh University of Business & Technology (BUBT)

CERTIFICATIONS & TRAINING

Data Analytics with Python — BUBT TAFE | Research Foundation & publications — BUBT TAFE | React and Django Full Stack Development —Ostad

LANGUAGES & INTERESTS

Languages: English (Professional Working), Bangla (Native)

Interests: IoT, Robotics, Machine Learning, Competitive Programming
